Experience

Codsoft | Java Development Intern
Feb 2024 – Mar 2024

- Designed and developed multiple interactive Java programs, including a Number Guessing Game, ATM Interface, and Student Grade Calculator, demonstrating strong proficiency in Java programming and software development.
- Collaborated with a team to analyze project requirements, implement solutions, and ensure the successful completion of projects within deadlines, improving teamwork and problem-solving skills.

Projects

SCM 2.0 - Smart Contact Manager | ⍾ ↗

- Cloud-Based Contact Management: Built a platform to efficiently manage contacts, with cloud integration for picture storage (AWS/Cloudinary) and features like adding, updating, and deleting contacts.
- User Authentication: Implemented secure user authentication with email verification and OAuth2 for Google and GitHub logins, secured with Spring Security.
- Email and Search Features: Enabled users to send emails with attachments and integrated a search functionality with pagination for easy contact retrieval.
- Tech Stack: Spring Boot, MySQL, Spring Security, OAuth2, AWS, Thymeleaf, Tailwind CSS.

Google-Gemini-Clone - Generative AI Chat Platform | ⍾ ↗

- AI Integration and State Management: Utilized Google Generative AI API for generating dynamic responses and employed React's Context API for effective management of global state, including user input, chat history, and response handling.
- Frontend Development: Designed and implemented a modern, responsive user interface with React and Vite, applying CSS for interactive and visually appealing elements, ensuring a seamless user experience across different devices.
- Tech Stack: React, JavaScript, JSX, HTML, CSS, Google Generative AI API, Context API, Animations.

Portfolio Website | ⍾ ↗

- Portfolio : Created a personal portfolio website to showcase projects, skills, and experience, enhancing online visibility.
- User-Friendly Design and Navigation: Designed an intuitive layout with easy navigation, incorporating animations and CSS for enhanced visual appeal.
- Tech Stack: HTML, CSS, JavaScript, Bootstrap, Git, GitHub.

Skills

Languages & Libraries	Java | DSA | SQL | Spring Boot | HTML | CSS | JavaScript | React | Bootstrap | TailwindCSS | Node.js
Tools & Software	VS Code | Git | GitHub | Maven | MongoDb | Android Studio
Others	UI/UX | Visual Graphics | Figma | Adobe photoshop | Googling

Achievements

- Self-Discipline and Personal Growth: Completed a 100-day self-discipline challenge, avoiding distractions like social media and junk food, which enhanced focus and time management. Additionally, read over 13 self-development books (5000+ pages) to gain valuable insights into productivity and mindset.

Java Project Development: Developed multiple Java-based projects during my internship at Codsoft, showcasing strong problem-solving skills and proficiency in software development.
